MARSHFIELD.

S. H. Packer had a telephone on the Molly Falls line placed in his home

louse last week.

The ladies of the M. E. church wish to announce an oyster supper to be givon in the vestry of the church Iriday evening, February 9th. In connection with the supper on "Old Folk's Concert" will be given by the choir. The success of past similar entertainments will warrant you of your money's worth, both at the table and entertainment. Mrs. W. H. H. Mears is improved in above shoulder, times one-half the health so as to be able to visit her mean width at the shoulder equals the daughter, Mrs. L. P. Slack of St. Johns-volume.

Mr. and Mrs. Charlie Perry were the guests of Mr. and Mrs. Herbert Emery

A justice court was in session January 18th in schoolhouse hall, O. H. Smith as court, the case on trial being state vs. A. Zannotta and D. DeVecha of Barre on a warrant of keeping and for Zannotta, and the costs. Scott & Carver appeared for the respondents and State's Attorney Jackson for the state. An appeal was taken by the respondents to county court. It is understood their counsel intends taking the case to supreme court to test the va-

lidity of the new "game" law, relating to dogs running at large.

A hox social will be held in the home of Mr. and Mrs. James Bouldry, Friday evening, Jan. 26th. The host and hostess as well as the entertainment bespeak a crowd of merry makers and a merry time. A cordial invitation is extended to all and the call for fancy boxes "built for two" will be great. Don't forget the time and place.

Ber Hope. Josle-I was taken for twenty-five today, and I am only eighteen. Julia-What will you be taken for when you are twenty-five? Josie-For better or worze, I hope.

TO A DISCOVERY.

Special Niche in Hall of Fame Is Due This Humble, Hungry Animal That Ended Its Days in a Feed on Colorado "Weed."

Washington, Jan. 22.-An English ram, with an appetite that failed to dis-play a discriminating taste among Amer-ican "weeds," has opened up a new field of industry for American capital and en-

terprise.
The ram died, but in future generations when the story is told of the discovery of the American rubber plant,

There recently came into the East

out of Celorado a sheep-raiser and cat-tleman of the name of Dunbar. He bail-

ed from Durango, and was known to Edwin Denby, members of Congress from Detroit. As an outcome of his visit to Washington and the interest in his his story manifested by the Michigan representative, Secretary Hitchcock last week issued an order withdrawing from settlement one township of land in Col-orado until the applicants for the order could gather the seed of a shrub grow-

a specimen of American flora hitnerto unknown. Mr. Dunbar is a sheep raiser on a large scale, and was content up to a hort time ago to be reckoned as one Bernard Marshall, public stenograph of Colorado's successful wool growers, er, 13 State street, Montpelier, does prompt and efficient work.

As Mr. Dunbar rode about the grazing lands when his sheep were turned As Mr. Dunbar rode about the graz-ing lands when his sheep were turned cose in the early spring to browse for Any one interested in patents may find a chance to triple their money by calling at 74 Maple avenue.

For Sale, —Cheap, a hay mare, 14 years old, sound and fearless. Inquire of Dean he sent to England and imported a num-

satisfactory pedfgree.

The English ram, however, went after that peculiar plant, which his mates had shunned, and are until he died. The ram was cut open, and in his stomach and intestines were found innumer able particles of rubber. The explana

HAY IN STACK.

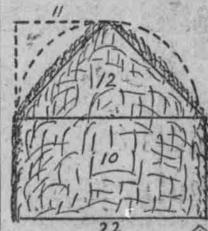

Weight of Bay. For computing the contents of two haystacks of given dimensions F. H. King advises as follows in Rural New

Yorker: Rule,-Mean length, times meau width, times mean height to shoulder: plus length, times mean height of ridge above shoulder, times one-half the

FIRST STACK $28 \times 22 \times 10 = 5.300$ cu. ft. below shoulder. $28 \times 11 \times 12 = 6.016$ cu. ft. above shoulder.

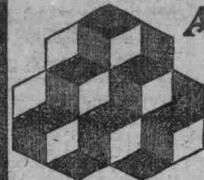

13.876 SECOND STACK. $57 \times 25 \times 10 = 14 \times 0$ cu. §t. below shoulder. $57 \times 12.5 \times 12.5 = 8.905$ cu. ft. above shoulder.

22,156 allowing dogs to run deer. The verdict of the court was guilty, with a fine of \$5 in each case, one for DeVecha and two shaped top, with the shoulders well defined, it will be seen that the volume

MEASUREMENT OF STACK HAY. product of the length into the height of the ridge above the shoulder multiplied by one-half the width of the stack at the shoulder, because, as illustrated in the sketch, if the stack were cut down along the ridge to the shoulder and the hay built over on the other side there would be formed a flat topped stack of balf the width of the stack at the shoulder, as indicated in the drawing. If the height of the ridge of the stack above the shoulder is one-half the width of the stack at the shoulder and the top is very rounding so that the contour of a cross section is very nearly a half circle, as indicated by the dotted semicircumference in the drawing, the volume above the shoulder will be more nearly given by multiplying the volume computed the other way by 3.1416 or by 3 1-7 and then dividing the result by two. As a matter of fact, the true volume usually lies between that given by the two methods, but nearer. to the first, and as the top of the stack is loosest and often most damaged the first method is usually the best to adopt. If this hay is rather coarse alfalfa, and especially if it has not had long to settle, the mean volume of a ton is likely to be above rather than below 500 cubic feet, and hence less
